

WHAT IS HAPPENING?

Farmalogg is currently developing a new cloud-based system to replace its current system.

As today, the system will be used for:

- Registration of new products
- Registration of product codes
- Uploading of batch certificates

WHEN IS IT HAPPENING?

- The new system will be launched during the *first quarter of 2026*
- The current system will remain available until the transition takes place
- Information about login and use of the new system will be shared well in advance

WHY IS IT HAPPENING?

The goal of the new system is to provide you, as a customer, with:

- A more modern and user-friendly interface
- A simpler and more intuitive user experience
- Greater flexibility to meet future needs

WHAT DOES THIS MEAN FOR YOU?

You will notice some changes in how the new system is used:

- Enhanced login security via email using Microsoft Entra ID
- An improved and more intuitive user interface that helps increase efficiency
