

WHAT IS HAPPENING?

Farmalogg is going to launch a new cloud-based system that will replace the current one.

As today, the system will be used for:

- Registration of new products
- Registration of product codes
- Uploading of batch certificates

WHEN IS IT HAPPENING?

- The new system will be launched on farmalogg.no on **Monday 2 March at 12.00**
- The current system will remain available until **Wednesday 25 February at 15.00**

WHY IS IT HAPPENING?

The goal of the new system is to provide you, as a customer, with:

- A more modern and user-friendly interface
- A simpler and more intuitive user experience
- Greater flexibility to meet future needs

WHAT DOES THIS MEAN FOR YOU?

You will notice some changes in how the new system is used:

- Enhanced login security via email using Microsoft Entra ID
- An improved and more intuitive user interface that helps increase efficiency
